## May 2018

Dear Friends

Our partners continue to be very active.

I attach an [appeal for funds](#) for the work of Eric Kihuluka and his colleagues in Kaliro District, Uganda. If you, your church or any other group can help, I and the residents in Kaliro District would be delighted!

Tamima and the Fweny Network in Kenya need a laptop urgently. Do you happen to have one sitting idle in your home? With no laptop I receive no good reports from Fweny and Tamima struggles with her nursing exams.

Rehema Namyalo and her colleagues Evelyne and Andrew recently conducted an intensive 7-day seminar for 29 people in Mpugwe, Uganda. The next such training will take place in Bundibugyo (a lovely name!) in October. Sponsored participants (£225) are welcome.

Christopher Nyakuni in Nyirivu, Uganda, told me his group came alive again after a 3-day refresher training last month. On Saturday the group will meet again and make aloe and neem ointment. They have been informed that they are the most active community group in the sub-county.

The English project DRIP have this week completed the construction of over 50 rainwater catchment tanks for households who are members of the Kasese network. We have just heard that we have been awarded a grant of £6500, which will enable the three projects of the network to conduct training for 6 schools, establish school gardens, train some farmers and improve their training facilities. This is a great encouragement for all!

With my best wishes.

Keith Lindsey

Rehema told me that the Muslim women from Mpugwe, where poverty is very serious, had tears in their eyes as they learnt many ways in which they could benefit from their locally available plants
