

**Discover News-sheet
for colleagues in Africa
June 2 2018**

Dear Friends

Many of you have complained about the problems of unpredictable rainfall and long dry periods.

Based on the experience of many colleagues, I have written this document in the hope that it will give some help and ideas. It is on our website, see <http://discover-src.net/en/wp-content/uploads/2018/06/Drought-management-DISCOVER.pdf>.

Tell me what you think about it! Please!

With my best wishes.

Keith
