

# Discover News-sheet

## June 2018

Dear Friends

Many of our partners in Africa have complained about the problems that they experience because of unpredictable rainfall and long dry periods.

Based on the experience of many colleagues, I have written this document in the hope that it will provide some help and ideas that might help them to cope with it. See <http://discover-src.net/en/wp-content/uploads/2018/06/Drought-management-DISCOVER.pdf>.

I would be grateful for your comments and any suggestions you have. Please feel free to share it with others who you think may benefit from it.

With my best wishes.

Keith Lindsey
