

Discover Newsletter

August 2022

Dear Friends,

As our August newsletter I am pleased to share with you this report from Robert Bwambale in Maliba, near Kasese, Uganda: <https://discover-src.net/en/wp-content/uploads/2022/08/2022-08-MONITORING-EXERCISE-Robert-Bwambale.pdf>

Robert Bwambale is Coordinator of "Bumbura Maliba". "Bumbura" means Discover in the local language. The group has about 70 members and is active in many ways in the Maliba community.

I admire Robert's commitment to his community enormously. I am astonished to read that a mother of 3 children has planted and cares for 75 healthy trees (out of 80 she planted) by carrying water from a river. In spite of all the massive challenges, under Robert's leadership, this community is going places!

Best wishes,

Keith
